

# Community Internship Collaboration

Spring 2018

## Internship Mentor Application

|   |   |
|---|---|
| <b>Organization name</b>  | Attack Research LLC   |
| <b>Mentor/Contact name</b>  | Tadeusz Raven   |
| <b>Address</b>  | 30 Bonnie View Dr.; Los Alamos, NM  |
| <b>Phone number</b>   | 505-672-6416  |
| <b>E-mail address</b>   | traven@attackresearch.com   |
| <b>Organization website</b>   | www.attackresearch.com  |
| <b>Describe your organization</b>   | Computer security research and testing  |
| <b>Internship title</b>   | Computer Systems Intern   |
| <b>Specific days/hours (if applicable)</b>                                      | Flexible, between 7:00 am-6:30 pm   |
| <b>What will the student learn from the internship?</b>                         | Depending on prior skill level, students may learn basic system administration techniques along with security work and exploitation.  |
| <b>What does your business need that a student intern can impact?</b>           | Usually nothing, just an interest in cyber-security. This is a training to generate interest for the student, which will lead to a career in in the cyber-security industry.  |
| <b>What project(s) will the intern work on?</b>                                 | The student will be a part of a team and a process of building a cyber-security service server.   |
| <b>What skills, ability or education level is required for this internship?</b> | A background in Computer Security, System Administration or Computer Science is helpful.  |
| <b>What is the final product will the student produce?</b>                      | Depending on the student's prior skill level and what is learned from Attack Reseach's training, they will be able use this knowledge of cyber-security systems and demonstrate the process of building and administering a service server. |
| <b>How would you describe the primary purpose of this project? (Select one)</b> | Computer Science/IT;  |
| <b>If "Other", please specify</b>   |   |
| <b>Any additional information you would like to share?</b>                      |   |
