

# Community Internship Collaboration

Spring 2018

Internship Mentor Application

<b>Organization name</b>	Pajarito Environmental Education Center
<b>Mentor/Contact name</b>	Siobhan Niklasson/Denise Matthews
<b>Address</b>	2600 Canyon Road, Los Alamos, NM 87544
<b>Phone number</b>	505-662-0460
<b>E-mail address</b>	educator@peecnature.org
<b>Organization website</b>	peecnature.org
<b>Describe your organization</b>	Pajarito Environmental Education Center operates the Los Alamos Nature Center. We offer educational programs focusing on nature on the Pajarito Plateau to students of all ages and the public.
<b>Internship title</b>	Education Programs Intern
<b>Specific days/hours (if applicable)</b>	Days/times to be determined. Some weekday and evening/weekend hours will be needed. Hours to include Earth Day Festival Saturday, April 21, 8 AM-3 PM.
<b>What will the student learn from the internship?</b>	The student will learn to work with a team to put together an educational event, including planning, advertising, implementing, and assessing the success of the event. The student will also learn the basics of effective communication in an informal education setting.
<b>What does your business need that a student intern can impact?</b>	PEEC is actively trying to increase our outreach to young adults, and a student intern can provide vital insight into effective lessons and events for this age group.
<b>What project(s) will the intern work on?</b>	The student will take a leadership role in preparing and hosting an event for an audience of young adults during Earth Day week. The student will also participate in preparing and teaching lessons and other educational events for a variety of audiences to gain experience in effective planning and communication skills.
<b>What skills, ability or education level is required for this internship?</b>	The student is interested in education and the environment. The student is willing to work with a team to produce an event. The student can pass a background check if over 18.
<b>What is the final product will the student produce?</b>	The student will create a plan for an event for young adults to be held during the week of Earth Day 2018. Together with PEEC staff and volunteers, the student will host the event. The student will write a final report about the event.
<b>If "Other", please specify</b>	Education/Event Coordination
<b>Any additional information you would like to share?</b>	PEEC is looking for an energetic student intern to help design lessons and events that appeal to young adults.
