Instead the campus hosted UNM Acting President Chaouki Abdallah, Acting Provost Craig White, the new Dean Of Engineering, Christos Christodoulou, and Representative Stephanie Garcia Richard.  
   ii. Enrollment: Spring enrollment head count at census date was 1128, up 1% from Spring 2016. Student credit hours were also up 1%. The number of degree seeking freshmen increased by 11% this semester and the number of dual credit students increased by 15%.  
   iii. Legislative Update: The New Mexico legislative session and budget cuts were discussed. Jerry Dominguez talked about current issues being discussed at main campus.  
   iv. Strategic Plan Update: Three strategic goals have been identified. After doing the initial SWOT analysis, the biggest concern was financial stability for this year and for the next 10 years. Next year, we will continue our grant submissions and look into fundraising opportunities to increase financial strength and stability.
v. Grants Update: We are hoping for an increase in grants as well as growth in our relationship with LANL. We have started using Zoom technology.

vi. Cindy Leyba continues to work with SunPath to expand and improve the ability of UNM-LA to deliver education and career training programs related to healthcare that can be completed in two years or less. Funding beyond September 2017 is uncertain.

vii. Graduation: Graduation has been scheduled for May 12 at 6 pm at the Los Alamos Crossroads Church. Dr. Zandree Stidham has agreed to serve as our speaker.

b. Office of Instruction:
   i. Kay Willerton gave an update on the status of the summer and fall schedule. Part of the scheduling process included Los Alamos Early College and Career Academy, Summer Bridge Program and the First Year Experience Program.
   ii. Talks with LANL about internship and employment opportunities continue.
   iii. On February 15, a ceremony honoring the first class of Personal Care Attendants was held on campus.

      2. A group was tasked to revise the scope of work to be completed with the 2016 GO Bond funding for infrastructure renovations. The initial proposal of $1,000,000 in improvements will be trimmed to the approved funding level of $625,000.
v. Highlights of the FY17 financials as of 1/31/17:
   1. Revenues as of 1/31/17 are at 70.73% of total budgeted revenues and expenditures are at 54.92% of total budget expenditures. Spring tuition revenues are on track to meet budget estimates and expenditures are within the budget as well. It appears we will manage the 5% budget reduction imposed in December without dipping into reserves.

vi. Preliminary Budget Impacts to State Appropriations for FY18
   1. State appropriations had an original allotment of $1,840,700. This included a one-time hold harmless allocation of $12,700. In the fall of 2016, a reduction of 5% was assessed against the permanent appropriation, which equated to $91,400. We have been told to consider this a permanent reduction moving into FY18. Future reductions were discussed.
